Dear Parents

I am very pleased to be able to pass to you the final report from OFSTED. It confirms what we the staff all work so hard to achieve for your children.

We continue to be a **'GOOD'** school!

The school was not due to be inspected until later next year however Ofsted are working ahead of schedule and arrived early. The result is a measure of the good work we do on a day to day basis and not just for inspection.

There are a few things for us to work on but we had already identified these and are well on the way to addressing the areas we know need a little more work. We will continue to improve in all that we do as everyone wants the absolute best for the children.

A big thank goes to everyone here and especially to you for supporting us in the work that we do. I would also like to pass on thanks to our children who so impressed the inspector with their manners and behaviour, their love of learning, their skills and confidence and their vibrancy.

*Ann Taylor*
