

We like to celebrate everyone's birthday. We will be looking at the calendar; how many sleeps will it be until the next person's birthday?

Being Physical- Manipulating glittery playdough the children will create gingerbread men, by stretching, rolling, and cutting the dough.

We will be creating our own obstacle course and pretending to be the Gingerbread Man as he runs away. We will be using action verbs such as run, walk, jump and stomp as we explore different ways to move.

Literacy

The Gingerbread Man

<https://www.youtube.com/watch?v=YoQyyB5xvLk>

We will be recalling the story using props and story cards. Which animal chased the Gingerbread man first? How did the story end?

Learning @Pre-School

Being Creative

Focus colour- Gold

We will be using shakers when saying the repetitive phrase "Run, run, as fast as you can. You can't catch me I'm the Gingerbread man."

We will create our own giant Gingerbread man using different types of media.

Maths Number Focus 1-5

Focus Shape- Heart

We will be following recipe instructions and measuring ingredients to make our own Gingerbread men.

<https://www.bbcgoodfood.com/recipes/gingerbread-men-0>

We will be matching number and quantity using numbered Gingerbread men.

How many characters chased the Gingerbread man? We will be making links to counting forwards as we add one more and backwards, one less; we will be using blocks to represent these patterns.

Our Special Words

Mix- to stir ingredients together to make cakes or biscuits.

Run- to move at a speed faster than walking.

Snap- to make a short, sharp sound when biting something, or when something snaps it breaks. Snap is also a game using cards.

Catch- To take or get hold of a moving object, or to hold and prevent someone from getting away.

Makaton Signs

Gingerbread

Mix

Man

Little Scientists!

The Gingerbread Man could not swim across the river. We will be looking at changes of state- testing how quickly a Gingerbread takes to dissolve in hot water and cold water.

<https://www.science-sparks.com/the-gingerbread-man-science-activities/>

We will be using our sense of smell when we bake as we experience the ingredients ginger, currants, cherries, and orange peel.
