

## Literacy- Book of the Week

[https://www.youtube.com/watch?v=k\\_ObzfSVK60](https://www.youtube.com/watch?v=k_ObzfSVK60)

We will be using props to retell the story.  
Do you know another story about a tiger?  
(The Tiger Who Came To Tea).

## Learning@Pre-School

### Our Special Words

**Float-** When something stays on top of the water, it floats. When something floats through the air, it moves slowly.

**Worry-** When you keep thinking about something that will make you unhappy.

**Stroke-** When you brush something gently with your hand.

**Hurry-** When you move or do something quickly because you don't have much time (quick, fast, rush, dash).

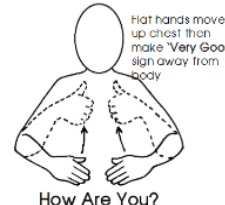

### Makaton Signs

Listen

Look

How Are You?

Sorry

**Being Physical-** We will be playing the 'Hurry, Hurry' game. How fast can we pass a beanbag around the circle? Can we finish before the sand timer runs out?

We will be threading beads. Who can thread the most in 1 minute?

We will be using our gentle hands to stroke our own head, nose and tummy. What animals like to be stroked?

### Being Creative

Focus Colour **Red**

We will be singing 'Rock-a-Bye-Baby' and 'See the Little Bunnies'.

After making calming jars (using glitter, water, and washing-up liquid) we will practise breathing slowly and gently, being calm and relaxed as we watch the glitter settle.

### The World Around Us

We will be using Google to find out information about tigers. Where do they live/ sleep? Why do they have stripes?

We will be investigating which resources float in water.

Do ice cubes float or sink?

You could find out more about the birds we see in our garden; we have signed up for the 'Big Garden Bird Watch'

<https://www.rspb.org.uk/>

It was Tiger's birthday.

What month is your birthday?

We will create birthday parties for our small world toys. What makes a party a special occasion?

If you feel worried, what can you do to feel better? Maybe tell Mummy, Daddy, your family, or your friends at Pre-School.

We will be thinking about how we **stay safe**; we walk carefully in our class room and can run outside in the playground.

### Maths- Number Focus 3

**Focus Shape-** triangle and pyramids

How many sides does a triangle have?

How many points? What shapes make up a square based pyramid?

We will be creating repeating patterns using orange and black unifix rods, and threading coloured beads.

We will be looking at different ways to make the number 3.
