

Neon Leon was sad. Sometimes our friends are sad how can we make them feel better? We will be looking at different pictures of children who are sad and thinking about how we can make them feel better.

We will be playing group games with our chameleon cards to spot if they match, taking turns to place the cards one at a time and saying 'match' when the cards are the same.

Being Physical

We will think about the word hide and playing a game where one person will hide under a camouflage sheet, and we have to think who is hiding.

Being Creative

Focus colour- Orange

Which two colours can be mixed to make orange?

We are making handprints to represent the colour groups we belong to.

We will be singing 'Down in the Jungle'

<https://www.youtube.com/watch?v=rVgIZ-akvw>

We will be creating pictures mixing red and yellow paint in shaving foam to see what colour we make.

Our small world animals will be able to hide in the jungle that we build; we will take turns to find them with our binoculars.

Learning @Pre-School

Our Special Words

Hide- When you go behind or under something so people can't see you. (camouflage)

Jungle- A big forest in a hot, rainy place. (wood/ forest)

Sad- When you don't feel very happy (upset, unhappy/miserable)

Match- When two or more things look the same, they MATCH (same, copy, identical)

Makaton Sign

Please Thank you Sad Happy

Literacy- Neon Leon

<https://www.youtube.com/watch?v=F9d-zFAUy3s>

We will be listening to the story and recalling what happened at the beginning, middle and end.

Maths Number Focus 1 & 2

Focus Shape- Circle/ sphere

How many sides does a circle have? We will be thinking about circles and spheres and where we can find these shapes in Pre-school.

We will be counting the number of chameleons we can find hiding on each page of our story.

We will be using Numicon to think of different ways to make numbers 1 & 2

The World Around Us

We will look at different animals and decide whether they live in a jungle, what sound they make and how they move.

We will be finding out about chameleons and learning about what they eat and how they catch their prey.
