# Year 1 Weekly Learning

Information about some of the things we will be learning in the Week Beginning 18th October

Class 1J did a fantastic job of leading the Harvest assembly on Wednesday – well done!! Thank you for your Harvest gifts of food/money which will be donated to Aylesbury Foodbank or CAFOD.

#### P.S.H.E. Personal Social Health Education

We begin a new topic called Be Yourself.

We will talk about what makes each one of us special: what things we can do well, things we enjoy doing, how we show kindness and friendship and what makes us feel confident.

#### R.E.

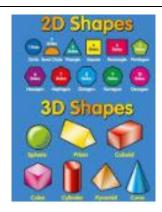

Our topic of Belonging continues as we learn about how babies can be welcomed into the Church through Baptism.

We will sequence the key events of this special time and talk about the people and objects we see used.

### **Maths**

We are learning about of 2D and 3D shapes.

There will be lots of practical opportunities to name, describe, compare and sort the shapes into groups.

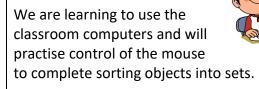

## **English:**

In English this week we will be using our reading skills to understand more about how sentences work. We will be ordering sets of words to make sense, looking at where a capital letter and full stop should be and where 'gaps' (finger spaces) need to be.

We will also be 'correcting' some sentences that our teachers might have made mistakes in!

Of course there are more dino-facts to be learnt as we do this...

## **Computing:**

**Music:** We will continue singing and clapping repeated rhythm patterns, first in songs then using percussion instruments.

## P.E.

Please come to school in P.E. Clothes on P.E. days which are Mondays and Thursdays.

This week we are practising our travelling, throwing and catching skills. Working in pairs and small groups helps us learn to be good team members.

# **Topic – Science**

We will continue learning about how some trees change in the Autumn and Winter but some keep their leaves, using the words

**deciduous** and **evergreen** to describe and sort them.

Perhaps you could go out on a family walk to feel the change in weather and look at the different sorts of trees.
