

# Year 1 Weekly Learning

Information about some of the things we will be learning in the **Week Beginning 11<sup>th</sup> October**

Class 1J will be leading a short Harvest assembly for our Year 1 and 2 children.  
We would welcome your Harvest gifts of food or money on Tuesday, Wednesday or Thursday – please see Parent mail sent this week for details.

## **P.S.H.E. Personal Social Health Education**

We are learning about the behaviour choices that we make – both good and not so good.  
We will be thinking about what happens to us and our families and friends after our choices and actions; beginning to understand that there are consequences to what we do and say.

## **R.E.**

This week begin a new topic on Belonging.

We will be talking about different groups that we belong to in school and the community (such as our class, sport club or Rainbows/Beavers).  
What shows that we belong to a group? We will enjoy learning about what you do!

## **Maths**

We are learning about be finding and writing numerals on number lines and tracks.

We will also be using the language of Ordinal Numbers such as First, Second, Third, Last

## **English:**

In English this week we will continue learning facts about dinosaurs. We will write sentences using capital letters, full stops and begin to add an adjective (describing words) e.g. sharp claws, huge head, green body. We continue to enjoy being reporters asking questions to class experts about the dinosaur of the week.

This week we are looking at **Ankylosaurs**.  
What words would you use to describe this dinosaur?  
Keeping our letters sitting on a line and using finger spaces between words makes our writing easier to read.  
We will also be ordering words to make sentences make sense, remembering where a capital letter and a full stop go.

## **Computing:**

We are learning to use the classroom computers and will practise control of the mouse to complete sorting objects into sets.

**Music:** We will continue singing and clapping repeated rhythm patterns, first in songs then using percussion instruments.

## P.E.

Please come to school in P.E. Clothes on P.E. days which are Mondays and Thursdays.

This week we are practising our travelling, throwing and catching skills. Working in pairs and small groups helps us learn to be good team members.

## Topic – Science

We will be learning about how some trees change in the Autumn and Winter but some keep their leaves, using the words deciduous and evergreen to sort them.

*Perhaps you could go out on a family walk to feel the change in weather and look at the different sorts of trees.*
