

Year 1

I am special in God's eyes

Information about some of the things we have been learning at St Joseph's
in Year 1 this week. 26.03.24 to 01.03.24

Topic

We have been working scientifically this week in topic. The children have been using scientific questions to work out if things are living or non living and explain why. For our history lessons we have learnt about George Mottershead, the founder of Chester Zoo. We have used our map skills to locate this on a map of the UK and then made a beautiful poster of animal facts and historical facts about George Mottershead.

In other areas of the curriculum, Year One have been enjoying their weekly ball skills lessons with Premier sports.

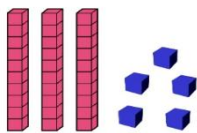

R.E.

In conclusion to our Meals topic, the children made collaged plates of food and role played a special meal with their friends. We then reflected on all we have learnt, why meals are special and how we should be thankful for all the food we have.

We will begin our topic of Change where we will be thinking in depth about the importance of Lent.

English

This week we have concluded our story of Leo and the Octopus. The children have created act files all about octopuses. The children have worked exceptionally hard to use a range of punctuation, recall facts, write questions and use conjunctions such as 'and' and 'because'. Well done Year One!

The number 35 is
represented by 3 groups
of ten and 5 ones.

Maths

We have been looking at tens and ones within numbers this week. The children have been counting in tens to 50 and back. They have used Diennes (pictured) to represent and recognise numbers within 50.

Information for next week:

- World book days Friday 8th March. Children are welcome to dress up!
