

Year 2

I am special in God's eyes

Information about some of the things we have been learning at St Joseph's
in Year 2 this week. 8th January to 12th January

Topic

This week in Topic we have been looking into the first man on the moon and all the other famous people who made the moon landing possible including Katherine Johnson who calculated trajectories of Apollo 11. We have been looking into Neil Armstrong's life and also considering reasons why humans want to travel in space. We moved onto some Geography later in the week and compared aerial shots vs maps of Aylesbury.

R.E.

In R.E we have been thinking about Holy Books. Firstly, we looked at the Bible and why it is so special. We talked about how there is an old and new testament and then we moved onto thinking about the Gospels.

English

We have started a new book in English; *The Bear Under the Stairs* by Helen Cooper. We have been writing letters in character (writing to a friend as if we were William) and then we replied to these letters.

Maths

In Maths we have started our new topic exploring money. We first looked at all the different coins we have and how we can use them to make certain amounts. We have built on this by adding notes and then making amounts with different coins.

Information for next week:

- Well done to Year 2 for their performance at the church on Tuesday!
- 2S' PE days are: Tuesday and Thursday
- 2J's PE days are: Tuesday and Wednesday
