## School News

Great to have everyone back in school. Over the holidays we have been very busy having a spring clean!

The classrooms are looking great with new rugs in KS1 that help encourage good sitting and listening and we have been able to purchase many new Maths resources. We have adapted the bikes sheds to make access easier for Foundation Stage – they love the bikes!

## Reception

We have had a lovely week back in school learning about how plants grow and what they need to survive. All our flowers started to droop without water! We hope the children have been talking to you about their rainbow challenges. The children have been taking responsibility for their own learning during their choosing time by completing tasks to collect lollipop sticks. We have been really busy completing them. In our RE we learnt that Jesus went back to his Father in heaven. In our prayer circle we each placed a heart in a bowl for God thanking God for giving us Jesus.

## Pre-School

We have spent this week settling back into Pre-School routines and welcoming new children. The children were excited to share their holiday news and play with their friends. We have enjoyed the warmer weather outside and being able to play in the mud and sand areas.

# Year 1

What a wonderful week back. All Year 1 adults have commented on how well the children have been able to work independently with super focus! The children have been excellent at counting in 10s, 2s and 5s and using a 100 square to help us do this. Later in the week we concentrated on counting groups of objects and children. Topic has been very exciting and we have learnt fun facts about William the Conqueror. Our new story in English is called Lost and Found, by Oliver Jeffers. We have rescued a lost penguin and described how lonely and sad he must be.

As part of our new learning linked to Ocean Meets Sky by the Fan Brothers, we wrote some fantastic character descriptions using noun phrases about Finn's Grandpa. This week, we have been revisiting learning in multiplication, money and measures. We were using practical equipment to help prove our solutions. As part of our new topic, Our School, we designed a beautiful flower garden in the shape of our school logo. Finally, in PE, we began learning about different types of jumps and how to control our landings. It was exhausting but we all enjoyed it!

# Year 2

Hazell Avenue, Aylesbury, Bucks HP21 7JF - 01296 484618
