

Year 2

I am special in God's eyes

Information about some of the things we have been learning at St Joseph's
in Year 2 this week.

Topic

This week, we have been discussing what a habitat is. Following this, we moved on to thinking about Polar habitats and the types of animals that live there. We have been learning about what makes some animals suitable for this kind of habitat and why some animals are not suited to these environments.

English

Leaving Jim and the Beanstalk behind, we ventured into a new book this week! Following the animal footsteps led the classes to clues about the animals in our new book. In particular, we talked about the Dodo and asked lots of questions about this extinct animal. We have explored types of sentences too, from commands to exclamations!

Maths

We have reviewed our learning linked to addition and subtraction this week by doing missing number problems. We have been reminded about exchanging, especially it's importance when we have to take more ones away than we have (eg. 93-29). We have been doing word problems involving subtracting and adding too!

R.E. and Catholic Life

This week in R.E we have been preparing for our Christmas production. Our lessons aligned with this as we learned about the Christmas story. We hope you enjoy the performance.

**The Year 2 team wish you a wonderful Christmas
time with family and friends.**

We return Thursday 4th January 2024
