# Weekly Snapshot

## School News

Our school reflection this week was to remember how God looks after all of us like a good shepherd looks after his sheep. We have also been reminded that we need to look after each other too. To help look after each other outside of the school gate we have taken delivery of our new signs to remind grown ups about careful and considerate parking. The children will be reminding their adults to take note of them.

## Reception

This week we have had an exciting arrival in our classrooms, little tiny caterpillars! We are going to look after them and observe them grow

and change into butterflies over the next few weeks before releasing them in our garden. We read a story about an extraordinary gardener called Joe who grew an amazing garden and we planted our own bean seeds to care for. Joe lived in some flats so we have looked at different types of homes, both old and new. We are getting very good at counting beyond ten and recognising numbers from 11 – 20.

## Pre-School

This week we went for a walk down to the big field and enjoyed singing some songs in the Gazebo. We have been sequencing a short rhyme or routine in maths, ordering up to four steps. Our story this week has been about a bear and on Wednesday we had a teddy bears picnic.

# Year 1

Year 1 have had fun learning new songs in their music lesson. They worked hard to learn the first part of Bill Withers song, 'Lean on me'. Using maracas as accompaniment.

They sang beautifully together!

In English, the children have been doing, 'Walkie Talkie' sentences. This is helping them to know when a sentence begins and stops. We have been enjoying learning about penguins for our book, 'Lost and Found'. We found it interesting to learn that penguins cannot taste their food!

We used the information to write how we could look after the lost penguin. We have challenged ourselves learning about arrays for multiplication.

Ahoy me hearties!

Year 2 set sail this week as part of our learning linked to Ocean Meets Sky. We set sail on a journey through a thunderous storm past a giant goldfish, a land of books, enormous seashells and a swarm of jellyfish. The children produced some fantastic Captain's logs, where they retold their expedition. Continuing our learning on 'Our School', we have been learning about Aylesbury and maps. We created model versions of a map based on Aylesbury. The children loved thinking creatively about how to show roads, canals and other key features. Can you spot any in the photographs?

# Year 2
