

# Weekly Learning Pre-School 01.05.2023

## Communication and Language

**Moon-** The moon circles the earth and can be seen shining at night as it reflects light from the sun. Sometimes it looks round and sometimes it looks crescent shaped.

**Brave-**(heroic, courageous) When we do something, even though we feel a bit frightened, we are being brave.

**Splash-**(splatter, sprinkle) When you jump in water or hit it with your hands, it moves and makes a splash.

**Quiet-**(silent) When there is only a small amount of noise or no noise at all, it is quiet.

### Religious Education

We will be celebrating the good news of Jesus as we dance with streamers to the 'Flight of the Bumble Bee'.

Can you dance to this **at home**?

<https://www.youtube.com/watch?v=X14kC-sEHOI>

### Personal, Social and Emotional Development

We will be talking about what makes us feel happy, worried, brave, sad and excited.

**At home** talk about what things make you feel excited?

### Physical Development

We will be using slow movements to walk like an astronaut on the moon. Then, we will pretend to be fast rockets blasting off into space...Zoom.

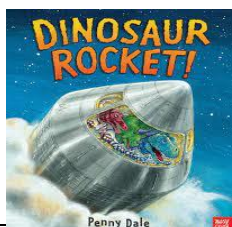

**At home:** Can you show your family the actions to 'Open Them, Shut Them' -move your hands slowly, slowly, then faster, faster...

### Literacy

#### Book of the Week

Try the link below to hear our story of the week.

<https://www.youtube.com/watch?v=LoOIm-PsITA>

### Maths

We will be comparing 2 groups of objects to see which has more and which has fewer/less. We will be counting backwards from 10 as our rockets blast off into space! **At home** can you collect some of your toys together in groups; count how many in each and decide which has more.

### Understanding the World

We will be asking questions: Where is the moon? Why does it look different shapes? Why do we sometimes see the moon at night, and in the day? What is gravity?!

**At home when you are in the bath,** see which of your toys makes the biggest splash. Why is this?

### Expressive Arts and Design

We will be using small world resources to create a moon scape. What shapes can we put together to make a rocket- cones and cylinders. We will make planets for a space mobile using balloons and papier mache.

Try singing these songs at home:
