

Look & Say What You Can See In The Countryside Week 19

This week we have DISCOVERED lots of new insects and animals in our nature book!

We have learned about animal HOMES and that some animals like to REST during the day.

- Look at the pictures together and tell the story. Which animals live UNDER the ground?
- Go into your garden or the park. What insects and plants can you DISCOVER?
- If you want to collect some insects, you could build a HOME for them!

Learning @ Home

These are the Special Words we have been learning about this week...
