

Year 1

I am special in God's eyes

Information about some of the things we have been learning at St Joseph's
in Year 1 this week. 22.01.24 to 26.01.24

Topic

We have been learning new scientific vocabulary this week, transparent and opaque. We have conducted an experiment to decide what material would be best suited to make a pair of curtains. The children used this scientific vocabulary to discuss why materials such as cling film and wood might not be best!

In P.E. we have been enjoying refining our ball control skills, we have played team games such as follow the leader and have practiced using different parts of our body to move and stop the ball in a controlled way.

R.E.

For the final week of our Special people topic we have discussed and written about how the people within the church community gather together after mass on a Sunday. The children looked at pictures as well as discussing their own personal experiences of attending mass. We reflected on all the special people that help within the church and the different people within the community that attend mass.

English

This week we have finished our story Beegu. We had great fun coming up with our own alien that crashed landed on Earth and wrote a story all about his exciting adventures. The children used amazing adjectives and showed how well they are able to structure a story.

$$8+4=12$$

1 2 3 4 5 6 7 8 9 10

Maths

We have been focussing on our number bonds to 10 and to 20. We have learnt how to add up by counting on from the first number and also how to solve number sentences using a number line. We have practiced writing number sentences neatly in our book and finding the answer and checking our answers carefully.

Information for next week:

- 1S P.E. days: Monday and Thursday
- 1J P.E. days: Tuesday and Friday
- Spellings to practice at home will be given out on a Monday
