

We want our children to be as confident as possible as they take their next steps along their learning journey. We will be supporting transitions for children moving across to the Sunshine Room and those leaving Pre-School to move to Reception in September.

Literacy- Firefly Home is an interactive book that encourages the reader to participate with the text.

<https://www.youtube.com/watch?v=VSxyJF53dAO>

We will be spotting the different lights in the story and naming them.

The Very Lonely Firefly- Eric Carle is a similar story.

<https://www.youtube.com/watch?v=JqUh1DQadoo>

We will be comparing this story to see if the Lonely Firefly spots different light sources.

We will be looking at the life cycle of fireflies.

Do they change like tadpoles and caterpillars?

Maths Subitising 1-5

Focus Shape Star

Florence wishes on a shooting star. Do all stars have the same number of points? We will be looking for stars in the classroom and checking.

We will be exploring the language of equal to, heavier than, lighter than, heaviest and lightest, while using different combinations of Numicon pieces.

We will also build towers up to 5. If we use 2 different colours, how many different towers can be built?

Learning @Pre-School

Our Special Words

Lost (missing, gone) - When you can't find something, it is lost.

Spot (see, notice) - When you see something.

Fly (flap, flutter) - When something flies, it moves through the air.

Fast (quick, speedy, rapid) - When something moves very quickly, it is fast.

Makaton Signs

Wish

fast

slow

To fly

Look

Being Physical

We will be running as fast as we can in our sports day activities on **THURSDAY 23.6.22**. We will be feeling our heartbeat as we practise. Is it beating fast or slow? How do we feel? (tired, hot, breathing quicker- is your heart pounding?)

We will be drawing around our hands, cutting them out and sticking them together to make wings like Florence the Firefly.

Can you pretend to be Florence flying through the air, twisting and twirling, flapping and fluttering your hands you move?

Being Creative- Fluorescent Colours

We will be using a variety of resources as we make fireflies that glow bright and firefly sun catchers. Where would you fly to, if you could make a wish?

We will learn a new song about stars.

The World Around Us

Florence visits lots of different light sources. We will think about light sources that we see at home and when we are out on a walk. Is it easier to spot them during the day or night?

What is a lighthouse? What do they do?

We will search the internet to find out about fireflies. Why do they shine bright?
