

It is important that we take care of the creatures in our world. We are taking care of our tadpoles and watching them grow.

We are thinking about how to care for each other and what we can do to help our friends.

Literacy- Franklin Frog

Franklin Frog is a story book and an information book. It has lots of facts. We will be looking at other information books in Pre-School.

We will be finishing our frog lifecycle booklets and thinking about our frogs who went back to their pond!

Maths

Focus Shape Circles, semi-circles, and spheres

Number Focus - Subitising to 5

We will be counting backwards and singing 5 Little Speckled Frogs, representing each verse with frogs on a five frame and displaying the numerals alongside.

We will be playing skittles and thinking of ways to record scores.

Can you throw the dice and add the correct number speckles to frogs to match the number?

Learning @Pre-School

Our Special Words

Grow- When something gets bigger and bigger.

Push- when you press against something to move it away from you.

Jump- when you jump, you bend your knees and push yourself into the air.

Protect- when someone keeps you safe and stops you from being hurt, they protect you.

Makaton Signs

Being Physical

We will be thinking about other animals that jump. We are going to use our strong legs to jump and pretend to be these animals.

We will be getting ready for sports day, and see how far and how high we can jump.

Franklin moves by pushing away the water with his feet. We are going to push cars over smooth and rough surface to see what happens. Which surface is easier to push the cars along?

Being Creative

Focus colour -Shade of purple

Frogspawn is like lots of little bubbles. We are going to blow bubbles and try to catch them.

We will be creating a pond for the frogs to jump into on the tuff spots.

We will making playdough frogs with different colour speckles.

The World Around Us

We have been looking at our own little tadpoles and watching them change daily. This video shows the whole life cycle of a frog

<https://www.youtube.com/watch?v=FIXoJYbBIs0>

We are going to go on a minibeast hunt to see which creatures we can find in our minibeast hotel, and in our garden.
